As an Information Systems student passionate about UI/UX, web development, and systems analysis, I have a solid foundation in designing intuitive user interfaces and building responsive websites. Proficient in Figma for UI/UX design and experienced in front-end development with HTML, CSS, and JavaScript, I excel at aligning user needs with business objectives through effective digital solutions. Additionally, I have experience interpreting and creating flowcharts to optimize workflows and enhance business processes. With strong analytical skills, attention to detail, and a commitment to continuous learning, I am eager to apply my expertise to deliver impactful solutions and drive strategic improvements.
